Total score				

Scoring System: Each item is rated from 0-4. Maximum score is 16 (4 x 4). Minimum competence score is 8 (average rating of 2 on each item). If criteria for a higher score are not quite met, then the lower score is chosen. Indicate in the comments what would have been necessary to achieve the higher score.

Consider: 1) are the key features **present**? 2) how **consistently** are they present? 3) how **appropriately and competently** are they used? 4) Please refer to both the scale and the manual in marking. The "examples" given in the Socratic Dialogue Rating Scale Manual are useful guides, but should not be considered absolute rating criteria.
